Human Resources Department,

I am a Civil/Structural/Project Engineer with over 10 years work experience and I derive absolute pleasure in being part of, as well as leading an effective, successful and productive team. I am quick to grasp fresh ideas, information and concepts, and to develop innovative and creative solutions to problems and fast growing challenges. I am able to work well with my own initiative and as well as a team with capacities required to meet the tightest of deadlines and schedules. I am proactive with a logical and analytical approach to challenges and I perform effectively even within a highly pressurized work environment. With my excellent professional engineering expertise, coordination and passion, my performance results in a measurable efficiency of cost, budget, time, resources, human capital management and value engineering. I am currently seeking a challenging work environment that will utilize my professionalism; and also develop and fast-track my career goals in various fields via trainings, hands-on experience, and research, for a more continued and sustainable progressive career path.

I hold a Postgraduate Degree (M.sc) in Civil Engineering (Structures) from the University of Lagos and a Bachelor of Science Degree (B.sc) in Civil Engineering from the University of Ibadan, and a National Diploma in the same course from the Lagos State Polytechnic. The internship programmes incorporated in the training curriculum in helped me gain a few years of work experience and gave me a well-developed, comprehensive and adept training and expertise catering for the design, execution and completion of building and infrastructural projects. This has given me a pedestal to render quality and premium services in all areas in connection with people, built environment, systems and nature.

I have an extensive knowledge on different platforms works such as; Construction Management and Engineering, Civil & Structural Engineering, Business Development and Procurement, Contract Engineering, Engineering Management, Design and Maintenance of structures, Project Management, Health, Safety and Environmental Hazards, Bid Tendering, Negotiations, Operational Management, Quality Assurance and Control, Structural Integrity, Assessment and Evaluation, Project Coordination, Infrastructure Planning.

Please find attached my resume for a more detailed profile.

Yours faithfully,

KWASIMA, feyisetan

Encl.

KWASIMA, Feyisetan

Civil/Structural Engineering /Project Management, Coordination & Development

PROFESSIONAL PROFILE

I am an enthusiastic and dedicated young individual, who derives absolute pleasure in being part of, as well as leading an effective, successful and productive team. I am quick to grasp fresh ideas, information and concepts, and to develop innovative and creative solutions to problems and fast growing challenges in modern times as this. I am able to work well with my own initiative, as well as joint team work, and can demonstrate the high levels of motivation required to meet the tightest of deadlines and schedule. I am a proactive individual with a logical approach to challenges. I perform effectively even within a highly pressurised working environment.

OBJECTIVE

I am interested in building on my extensive range of technical skills and knowledge within a suitably challenging role; and to continually develop the already achieved knowledge, expertise and skills for better productivity. I am very keen to achieve further professional development and expertise in the field of **Civil/Structural Engineering, Contract Engineering, Procurement, Project Management and Business Development**.

PROFESSIONAL SKILLS

Civil/Structural Engineering; Contract Engineering & Management; Project Development, Engineering and Management, Business Development; Procurement, Construction Supervision and Monitoring, Quality Assurance and Control, Project Coordination & Advisory, Infrastructure Planning.

CAREER SUMMARY

2017 -Till Date **House of Freedom, Lagos**
Projects Coordinator/Engineer

Job Description

- Project and Design Development
- Design Conceptualization, Documentation and Implementation
- Strategic Planning & Execution
- Technical Review of Engineering Designs, Details, Specifications
- Coordination of Consultants and Contractors/Sub-contractors
- Technical Planning & Implementation
- Tender and Contract Award processes
- Project Tracking, Monitoring and Control
- Cost, Scope, Budget and Quality Management
- Project Performance Evaluation and Review
- Contract and Risk Management & Assessment
- Project Review and Technical Operations and Coordination

- Construction Management & Advisory

Duties

- Project & Infrastructural Design, Management, Development and Contractual Award
- Project Operations Management and Coordination
- Procurement and Contracting
- Quality Assessment and Integrity Evaluation of works
- Facilities Management and Property Development
- Site Visit, Inspection and Project Progress Reporting
- QA/QC Review of Works
- Technical Review Meetings with Stakeholders
- Client Representation and Follow-up
- Site Coordination & Planning

2014 - 2017

AIM Consultants Ltd., Lagos

Senior Assistant Manager, Project Engineering & Contracts

Job Description

- Project Design Conceptualization and Strategic Planning
- Technical Review of Engineering Designs, Details, Specifications
- Project Performance Evaluation and Review
- Technical Planning & Implementation
- Tender and Contract Award processes
- Project Monitoring, Control, Schedule and Organization
- Facilities Management Advisor and Logistics Operations
- Property Development
- Technical Coordination onsite and offsite
- Management of Architectural competitions and Engineering Design optimization
- Cost and Quality Management & Control
- Contract and Risk Management & Assessment
- Communication and Information Management

Duties

- Project Design and interface
- Infrastructural Design and Development
- Operations Management and control
- Procurement and Contracting
- Preparation and submission of Expression of Interest, Technical and Financial for Projects
- Project Research, Development, Management and Validation
- Identifying and exploring potential business opportunities
- Site Visit, Inspection and Project Progress Reporting
- QA/QC Review of Proposals, Tenders and Project Sites
- Project Development and Management

2011-2014 ENCON International Ltd., Lagos

Project Engineer

Job Description

- Structural Design and Analysing of elements and components
- Conducting Non-destructive & Structural integrity tests on structural elements using the Schmidt Hammer, Ultrasonic Velocity Testing Machine.

- Paying of workers' wages and salaries

Duties

- Construction Management & Supervision
- Site Coordination and Operational Strategy
- Procurement of materials
- Client Liaison
- Monitoring and Followup

EDUCATION & QUALIFICATION

University of Lagos, Lagos

- *Civil Engineering (Structures) (M.sc)*

University of Ibadan, Ibadan

- *Civil Engineering (B.sc, Second Class Upper Division)*

Lagos State Polytechnic, Lagos

- *Civil Engineering (ND, Upper Credit Division)*

BATIDO Systems, Lagos

- *Diploma in Desktop Publishing and Application*

Lagos City College, Lagos

- *Senior School Certificate*

Prime Days Spring School

- *First School Leaving Certificate*

COMPUTER SKILLS

MS Office including: Word, Excel, Word Perfect, Access, Project, Power Point Presentation, Publisher; Prima Vera, Staad Pro, Geo5 v11, Prokon, Civil Soft, RCC, Orion R14-18, Prota Structure, Robot, Tedds, Tekla Structural Designer, etc.

MEMBERSHIP

- 2015 Council for the Regulation of Engineering in Nigeria (COREN) - 30516
- 2014 Member, Nigerian Society of Engineers (NSE) - 31969
- 2014 Member, Nigerian Institute of Civil Engineers - 01638
- 2011 Member, International Association for Bridge & Structural Engineering (IABSE) - 432565
- 2005 Student Member, Institute of Civil Engineers (ICE)
- 2004 Student Member, American Society of Civil Engineers (ASCE)

PROFESSIONAL TRAINING & CERTIFICATION

Road Safety Audit (RSA); Structural Modelling of Multi-Story buildings; Quality Control Assurance; Project Planning & Control; Quality Management Systems; Project Management (PMP); RINCE2 (Foundation and Practitioner); Health, Safety & Environment; Technical Writing & Presentation; Quality, Risk, Procurement and Project Closeout; Supply Chain Management; Strategic System Analysis & Design; Operations Management: Facility Planning & Management; Construction Management & Project Delivery; Lean Six Sigma Foundation etc.

STRENGTHS

- Effective Technical, Analytical, and Engineering Skills
- Good and well balanced time management skills, with detailed attention to details and information
- Ability to learn, assimilate and practice current and updated information management system
- Effective and efficient managerial, administrative and team work abilities
- Team leadership and good work relationship with other teams and colleagues
- Effective communication and public presentation skills
- Good marketing skills and technique and improved public relations systems.

PAPER PRESENTATION

Effect of Diesel Oil Contamination on Soil Natural Recharge of Groundwater - KWASIMA, Oluwatosin Feyisetan (2009)
A published Report submitted in partial fulfilment for the award of B.Sc (Hons) Degree at the department of Civil Engineering, Faculty of Technology, University of Ibadan.

Strength Indices of Reinforced Laterized Concrete Beams Having Cement Partially Replaced With Corn Husk Ash - KWASIMA, Oluwatosin Feyisetan (2014). An Unpublished Report submitted in partial fulfilment for the award of M.Sc (Structures Options) Degree at the department of Civil & Environmental Engineering, University of Lagos.
