STATE OF ORIGIN: Delta State

<u>INSTITUTIONS ATTENDED</u>	<u>QUALIFICATION OBTAINED</u>	<u>DATES</u>
UNIVERSITY COLLEGE LONDON	MSC MECHANICAL ENGINEERING WITH SPECIALIZATION IN OFFSHORE STRUCTURES AND MARINE SYSTEMS	2009-2010
UNIVERSITY OF NIGERIA, NSUKKA	MECHANICAL ENGINEERING	2000-2006

SUMMARY OF EXPERIENCE

Extensive experience covering Port Facility Management, Marine and Offshore support operations including engineering, procurement and Loading/Unloading vessels to support offshore operations. I have proven abilities in Port facility operations including all associated equipment within the Port, manage marine vessels of various types (AHTS, ASD Tugs, PSV, Crewboats, Accomodation Barges, Offshore Construction vessels) in areas of technical, surveys, inspections, crewing, and even dry docking. I have also proven experience in making selection (taking consideration of their natural capacities and capabilities including the consideration of environmental conditions, seabed geotechnical factors) of marine vessels and other auxillary equipment required for the deleivery of diverse projects. For example, I have supported ExxonMobil offshore production activities by ensuring that all our chartered vessels are always available and reliable to ensure continuity of their drilling, production activities carried out in various offshore locations. I work and interface collaboratively with INTELS to ensure that the aforementioned critical tasks are really achieved. Aside Port facility and Ship management, I also have considerable experience in Land logistics, local and international procurement activities.

ESTABLISHMENT: **CHAIRBORNE GLOBAL SERVICES LIMITED**
PROJECT: **OVERSEE THE DAY TO DAY OPERATIONS OF (2 NOS.)
AHTS AND (2 NOS.) PSV ENGAGED WITH EXXONMOBIL
TO SUPPORT THEIR OFFSHORE OPERATIONS**
